

Zoya AI — JavaScript Source Code

Parts 1–7 • GitHub-ready web/PWA foundation

PDF app/APK source code JavaScript/HTML/CSS source structure Browser JavaScript Android native feature control battery broadcasts, calls, notifications, accessibility deep phone control native Android bridge/API Emotion human feeling treat human feeling

Part 1 — Core

```
<!doctype html>
<html><head><meta charset="utf-8"><meta name="viewport" content="width=device-width,initial-scale=1">
<title>Zoya AI Core</title><link rel="stylesheet" href="style.css"></head>
<body><main class="app"><h1>ZOYA AI</h1><p>Core Foundation – S Khan</p>
<textarea id="msg" placeholder="Type to Zoya..."></textarea><button onclick="talk()">Send</button>
<div id="out"></div></main><script src="app.js"></script></body></html>
```

Part 2 — Voice

```
function speak(text){
  if("speechSynthesis" in window){
    speechSynthesis.cancel();
    speechSynthesis.speak(new SpeechSynthesisUtterance(text));
  }
}
function listen(){
  const R=window.SpeechRecognition|window.webkitSpeechRecognition;
  if(!R){status("Speech recognition unavailable");return;}
  const r=new R(); r.lang="hi-IN";
  r.onresult=e=>{
    const text=e.results[0][0].transcript;
    document.getElementById("text").value=text;
    speak("Jaanu, maine suna: "+text);
  };
  r.onerror=()=>status("Microphone/speech recognition error.");
  r.start();
}
```

Part 3 — Visual

```
async function camera(){
  try{
    const stream=await navigator.mediaDevices.getUserMedia({video:true,audio:false});
    const video=document.getElementById("video");
    video.srcObject=stream; video.style.display="block";
    document.getElementById("status").textContent="Camera active.";
  }catch(error){
    document.getElementById("status").textContent=
      "Camera permission unavailable or denied.";
  }
}
```

Part 4 — Phone Control

```
function openYouTube(){
  window.location.href="https://www.youtube.com/";
}
function openGoogle(){
  window.location.href="https://www.google.com/";
}
function searchWeb(query){
  window.location.href="https://www.google.com/search?q="+encodeURIComponent(query);
}
// Native Android actions require a native bridge/APK and explicit permissions.
```

Part 5 — Memory + Personality

```
const MEMORY_KEY="zoya_memory";
function saveMemory(text){
  const value=text.trim(); if(!value)return;
  const memories=JSON.parse(localStorage.getItem(MEMORY_KEY)||"[]");
  memories.push(value);
  localStorage.setItem(MEMORY_KEY,JSON.stringify(memories));
}
function getMemories(){
  return JSON.parse(localStorage.getItem(MEMORY_KEY)||"[]");
}
function clearMemories(){
  localStorage.removeItem(MEMORY_KEY);
}
// Local browser memory only; cloud memory needs a secure backend.
```

Part 6 — Integration

```
function integrationCheck(){
  return {
    speechOutput:("speechSynthesis" in window),
    speechInput:("SpeechRecognition" in window)||("webkitSpeechRecognition" in window),
    camera:!!navigator.mediaDevices,
    localStorage:!!window.localStorage
  };
}
function zoyaReply(text){
  const reply="Samajh gayi Jaanu. "+text;
  speak(reply);
  return reply;
}
```

Part 7 — Emotion + Battery

```
function estimateEmotion(text){
  const t=text.toLowerCase();
  if(/khush|happy|mast|accha/.test(t)) return "happy";
  if(/dukhi|sad|udaas|ro/.test(t)) return "sad";
  if(/gussa|angry|naraz/.test(t)) return "angry";
  if(/pareshan|tension|chinta/.test(t)) return "worried";
  if(/samajh|confuse|kya/.test(t)) return "confused";
  return "neutral";
}

function batteryText(level, charging){
  return "Battery: "+level+"%"+(charging?" • Charging":" • Discharging");
}

// Browser battery support varies by browser.
// For a real Android app use Android BatteryManager/BATTERY_CHANGED
// and connect its result to the same announcement layer.

const batteryMilestones=[1,2,3,4,5,10,20,30,40,50,60,70,80,90,100];

function shouldAnnounce(level,lastLevel){
  return batteryMilestones.includes(level) && level!==lastLevel;
}

// Example Hindi voice announcement:
// 5% -> "Jaanu, battery sirf 5 percent reh gayi hai."
// 100% -> "Jaanu, battery full 100 percent ho gayi hai."
```

Recommended GitHub structure
